

MEET THE CHIMPS

Amy Fultz, Director of Behavior & Research

Amy Fultz has a way with chimps. Since co-founding Chimp Haven in 1995, she's played matchmaker more than 250 times, creating large, loving chimp families and helping retirees thrive at the sanctuary. When Fultz is not enriching the lives of chimps and staff alike, you'll find her hanging out with her daughters and pets, or behind a camera sharing her passion for photography.

Favorite Chimp: Matthew – "He's handsome and just plain silly."
