

# ANIMALS UP CLOSE

WITH BERTIE GREGORY

Bertie Gregory is back, and this time, the adventures are even more epic! Bertie takes us to the most spectacular corners of our planet — from Antarctica to Africa and South America to Asia — tracking down extraordinary animals to capture their daily lives like never before. Armed with drones, state-of-the-art cameras, and underwater tech, he and his team brave subzero seas, climb snow-capped mountains, and sleep suspended 120 feet in the air to reveal the challenges these animals endure, their fierce rivalries, and the threats they face on our changing planet. **ANIMALS UP CLOSE WITH BERTIE GREGORY** shows all the behind-the-scenes moments he and his team face while adapting to unpredictable wildlife in remote environments where filming rarely goes as planned. There is no script for this unique series, but through it all, Bertie brings the audience with him every step of the way.
