

BIOGRAPHY

Molly Chester

Farmer & Co-Founder of Apricot Lane Farms

Molly Chester is a farmer and the co-founder of Apricot Lane Farms, a 214-acre regenerative farm in Moorpark, California.

Transplanted from the East Coast as an expert in culinary arts, Molly has always looked for the most nutrient-dense foods. Knowing the quality of the food she cooks directly relates to the health of the farm and its soil, Molly's culinary journey led her and (her husband) John to spend a decade transforming a barren, industrial lemon orchard into a highly diversified, biodynamic farm.
