

GALACTIC SOCIETY OF

CREATURE ENTHUSIASTS

ACTIVITY JOURNAL

HISTORY

The Galactic Society of Creature Enthusiasts was founded during the exploration age of the High Republic by a group of like-minded scientists and adventurers interested in researching and cataloging the myriad of new species found on the frontier worlds of the Republic.

Starting with a simple monthly newsletter and small dinner meetings, the group has expanded over the centuries to become one of the largest supporters of wilderness preservation and education. The Society produces a variety of educational programming on the HoloNet and as well as continuing its monthly newsletter-now with close to 5000 issues!

For some of their most dangerous assignments, the group commissioned the construction of a series of "Safari droids" from Serv-O-Droid, Inc., built to autonomously document and interact with creatures in the wild, reporting their findings back to the Society.

THE SOCIETY CREED

We travel the galaxy far and wide,
To explore creatures wherever they hide.
With wilderness preservation top of mind,
We never disturb a habitat of any kind.
We care for species whether friend or foe,
And represent the Society wherever we go.

WORD SCRAMBLE

Unscramble the letters to form the names of *Star Wars* creatures.
