

Forky, from Disney and Pixar's TOY STORY 4, is a craft project created from trash, so he has important questions about how the world works, such as: What is love? What is time? And of course, the deepest question of all, What is cheese? He explores all of these questions and more in a collection of 10 shorts called "Forky Asks A Question", exclusively on Disney +.

Produced by Pixar Animation Studios, "Forky Asks A Question" is written and directed by Academy Award®-nominated screenwriter and director Bob Peterson ("Finding Nemo," "Up") and produced by Mark Nielsen ("Toy Story 4," Golden Globe®-winning feature "Cars")
