

# MEET THE CHIMPS

***Dr. Raven Jackson-Jewett, D.V.M., Director of Veterinary Care,  
Attending Veterinarian***

Dr. Raven Jackson-Jewett is a mother to five little humans and caregiver to more than 300 chimps! She works tirelessly to keep retirees healthy and thriving, and due to her nurturing spirit, the chimps always love a visit from Dr. J... even if she happens to be carrying a needle that day! When she's not working on the next lifesaving chimp procedure, Dr. J enjoys good food with her husband and friends.

*Favorite Chimp: Buster – "He's hard core; yet so sweet."*
