

CRAFT *your* CROWN

Let's get the party started by dressing for the part. To kick off the festivities, create paper crowns to set a majestic tone for your princess party.

Supplies

- 8 squares of paper (equal size)
- Glue Stick

1. Cut out 8 paper squares, making sure they're all the same size (10cm on each side is recommended!).

2. Fold one square in half, following the dotted line in the image.

3. Fold once more, following the dotted line in the image.

4. Carefully repeat steps 2-3 with all remaining squares to create 8 folded triangles.

5. Then unfold one layer so that there is a crease along the middle of the triangle.

6. Assemble your crown by interlocking the triangles. Slide the pocket of one triangle over the point of another and keep going until all the pieces form a circle. Secure them with glue. Once it's ready, decorate your crown with gems, stickers, or anything magical of your choice!
