

Tiana

CHENILLE STEM FIREFLIES

Light up your life with some chenille stem fireflies just like those that guided Tiana through the bayou.

 *Ask an Adult for Help*

Supplies

- Googly Eyes
- Black Pony Beads (8)
- Yellow or Glow in the Dark Pony Beads (3)
- Black and Gold Chenille stems
- Scissors

Directions

1. Fold the black chenille stem in half and start threading the black beads through, knotting and twisting one end so the beads stay in place.
2. Add yellow/glow beads at the end, leaving space to twist and secure all the beads in place.
3. Take your gold chenille stem and twist the ends together to make a big circle. Pinch two points together to meet in the middle and twist, making the two firefly wings. Attach wings to middle of black beaded body.
4. Finish the look by gluing googly eyes to the knotted end. Voilà - you have your own Ray!
